

This map illustrates various weather systems across the United States. Key features include:

- High Pressure Systems (B):** Four large red 'B' symbols are positioned in the Pacific Northwest, the northern Rocky Mountains, the central Rocky Mountains, and the Southwest.
- Low Pressure Systems (A):** Two large blue 'A' symbols are located in the Midwest and the Southeast.
- Fronts:** Blue lines with triangles represent cold fronts, and red lines with semicircles represent warm fronts. These are shown moving across the country.
- Weather Conditions:**
 - Nieve (Snow):** Indicated by white dashed lines and labels in the northern and mountain regions.
 - Posible Nieve Fuerte (Possible Heavy Snow):** A specific area in the northern Rockies is highlighted with a hatched pattern.
 - Lluvia (Rain):** Labeled in the Pacific Northwest, the Southeast, and along the Gulf Coast.
 - Lluvia/Tronadas (Rain/Thunderstorms):** Labeled in the Southeast and along the Gulf Coast.
 - Lluvia/Nieve (Rain/Snow):** Labeled in the Pacific Northwest.
- NOAA Logo:** Located in the bottom left corner, featuring the text "NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION" and "U.S. DEPARTMENT OF COMMERCE" around a circular emblem.

This map illustrates various weather systems across the United States. Key features include:

- High Pressure Systems (H):** Indicated by large red 'H' symbols in the Pacific Northwest, the northern Great Plains, and the Northeast.
- Low Pressure Systems (L):** Indicated by large blue 'L' symbols in the Southwest, the central Great Plains, and the Southeast.
- Fronts:**
 - Warm Fronts:** Represented by blue lines with triangles pointing in the direction of movement.
 - Cold Fronts:** Represented by orange dashed lines with triangles pointing in the direction of movement.
- Weather Conditions:**
 - Nieve (Snow):** Labeled in several areas, including the northern Great Plains, the central Great Plains, and the Northeast.
 - Posible Nieve Fuerte (Possible Heavy Snow):** A specific area in the northern Great Plains is highlighted with a hatched pattern.
 - Lluvia (Rain):** Labeled in the Pacific Northwest, the Southwest, and the Southeast.
 - Lluvia/Tronadas (Rain/Thunderstorms):** Labeled in the Southeast.

The NOAA logo is visible in the bottom left corner.
